

Cell Phone Use Policy

The use of cell phones in the Library can often prove disruptive to patrons and staff. Therefore, the following restrictions apply to the use of cell phones in the Community Library.

- A. Patrons using the library should turn off or silence their cell phones before entering the building.
- B. Patrons making calls on a cell phone should take the call outside or away from other patrons while in the library.
- C. A staff member may ask the patron to go outside if they are interrupting other patrons.

Failure to follow and abide by this policy may result in disciplinary actions by Library Staff or the Library Manager, as stated in the Library Rules of Conduct Policy.
